May, 2011

Dear Friends:

As Honorary Patron of the Canadian Foundation for Asian Culture Inc. (CFACI) which annually celebrates Asian Heritage Month in the Greater Toronto Area, I would like to congratulate the organizers on this year's exciting lineup for the Asian Heritage Month Festival 2011.

As a world city, Toronto celebrates its many cultures during this Festival, which helps build bridges of understanding among the many different communities that are part of this great city.

Highlights of the month include dance, theatre, art and photo exhibitions, Chinese opera, classical music and dance, as well as a special panel of experts speaking on the subject of international education.

With its emphasis on partnership building, and education, the CFACI unites the pan-Asian community in mutual support, and appreciation of the incredible diversity of the arts and cultures which contribute so much to the GTA. I invite all citizens of Toronto to come out in celebration of Asian Heritage Month throughout the month of May.

Yours sincerely,

Vivienne Poy
